

PROFESSIONAL REVIEW WORKSHOP 2024

HOW TO BECOME A CHARTERED BUILDING SERVICES ENGINEER!

The Institution of Engineers Sri Lanka Qatar Chapter (IESL-QC) proudly announces the successful completion of its Professional Review Workshop titled 'How to Become a Chartered Building Services Engineer,' held on October 25th, 2024. This workshop attracted the attention of 50 professionals keen to understand the pathway and standards for achieving chartered status in building services engineering.

The event began at 16:00 hrs (Qatar Time) and was conducted virtually to allow global participation. CEng. Chandimal Jayakody, a distinguished Chartered Engineer with extensive experience in the MEP and construction sectors, led the workshop. Eng. Chandimal's expertise and commitment to professional development were evident as he guided attendees through the Professional Review (PR) process, application best practices, and the critical areas candidates should focus on to succeed in becoming chartered engineers.

Key topics covered during the session included:

- ✓ Overview of the Professional Review process and requirements
- ✓ Essential documents and preparation tips for the PR interview
- ✓ Common challenges candidates face and strategies to overcome them
- ✓ Insightful advice on professional ethics and standards

The interactive nature of the workshop allowed participants to ask questions and clarify their doubts directly with the presenter, making the session engaging and valuable for all involved.

Eng. Manoj, the Secretary of the IESL Qatar Chapter, delivered the vote of thanks, expressing gratitude to Eng. Chandimal for his informative presentation, organizing team for proper organization, and to all participants for their active involvement.

The IESL Qatar Chapter is committed to fostering professional growth and providing valuable learning opportunities for Sri Lankan engineers in Qatar. This successful workshop is another testament to our dedication to enhancing the skills and knowledge of our community members.

Photographs of the event and additional details are available on the IESL Qatar Chapter's official social media pages.

At the end, the participants were asked to fill out a registration form to ensure the active involvement and issue the certificates. The session received welcoming positive feedbacks, highlighting its informative session.

The IESL Qatar Chapter remains committed to fostering professional growth and educational excellence within the engineering community.

1. Eligibility.

Recognized Training (Wide Rule 5.2)- for Practicing engineers

- A structured training program for the field of specialization
- Can be obtained only after fulfilling the academic qualification required for Associate Membership of IESL
- Can be obtained only from an "approved organization"
- Should be under the guidance of a Corporate Member of IESL during the full training period
- Implant training is also considered as Recognized Training up to maximum of 6 months (Rule 4.2).
- Log book to be maintained

Eligibility. ..

Recognized Training for Building Services Engineers

A.2.1. Applicants practicing in the broad area of Building Service Engineering should have, after successful completion of required academic qualifications as set out in Rule 4.1,

A.2.1.1. A minimum of 24 months training in aggregate in any of the following major fields.

- Medium Voltage & Low Voltage power distribution system, Electrical Installations, Extra Low voltage system
- Mechanical Ventilation, Air conditioning and Heating system
- Cold Water supply, Hot water supply, Waste Water and Drainage system
- Fire detection and protection system

A.2.1.2. The training may be in areas of planning, design and development, estimating, construction, manufacture, installation, commissioning, inspection and testing, operation and maintenance. Engagement in all the above areas will not be required, but a broad training not restricted to a narrow field is required.

Minimum Durations of Training & Experience for Practicing Engineers

	Org. approved	Previously approved but not renewed	Not approved. But facilities available to approve	Org has no C.Eng to guide, but having phy. resources	Non engineering org. (banks)	Foreign companies doing Projects, but not approved.
Training	24 mts	36 mts	48 mts	Mentor scheme (36 mts)	Refer Rule J1.4 (24 mts)	Refer Rule J1.5 (48 mts)
Experience	24 mts	36 mts	48 mts	Mentor scheme (24 mts)	Refer Rule J1.4 (12+36 mts)	Refer Rule J1.5 (48 mts)
Total	48 mts	72 mts	96 mts	60 mts	72 mts	96 mts

4. Written Examination

A paper & B paper

Paper A - Professional Experience - To test the candidate's ability to express in writing, matters pertaining to his/her professional experience.

Paper B - Communication skills, ethics and code of conduct and society related topics. - To assess the candidate's ability to communicate his/her ideas and his/her awareness of topics based on Engineering Ethics and Code of Conduct governing Engineers, issues taking place in the society locally and globally, issues not directly engineering related but effect engineers as members of the society, developments taking place around us and future trends.

Minimum 25 hours of CPD hours will help to reduce the need of Competency 3 to 5

About Us
The Institution of Engineers, Sri Lanka (IESL) Qatar Chapter is a professional body dedicated to supporting and promoting the engineering profession among Sri Lankan engineers residing in Qatar. We organize workshops, seminars, and professional development programs aimed at enhancing the skills and knowledge of our members, ensuring they achieve the highest standards of engineering excellence and professional recognition.
