

Wayamba Chapter **Annual Field Visit and Family Trip**

This time we visited Dambulla Water Treatment plant as our annual field visit. It was a very informative session and very useful for knowledge. Got to know how to treat water as drinking water for the general public and types & mechanisms of water treatment. Attractive presentation was organized by National Water Supply & Drainage Board staff.

The annual family trip was held on 14th July, 2024 to Tropical Life Resort & Spa at Dambulla. Played cricket match and all the participants enjoyed it a lot. The event was on a first come- first serve basis and 34 participants joined the event.
