

## **CPD Session 03/2025 – Strengthening Technical Excellence through Knowledge Sharing**

The Institution of Engineers, Sri Lanka (IESL) – Qatar Chapter successfully conducted its third Continuing Professional Development (CPD) session for 2025 at the Stafford Sri Lankan School, Doha on 24 October 2025, with the participation of approximately 20 Sri Lankan engineers representing diverse disciplines within the construction sector. The event marked another significant milestone in the Chapter’s ongoing efforts to enhance professional competency and strengthen the engineering community in Qatar.

The session was delivered on the topic “Basics of Steel Structures in the Construction Industry” by C.Eng. A.R.M. Rifaath, a highly respected professional with extensive expertise in steel structures and construction practices.

C.Eng. Rifaath delivered a technically rich, practical, and highly engaging presentation, drawing from his vast industry experience. The session covered fundamental concepts of steel structure applications, fabrication processes, quality standards, and installation practices, supported by real-world project examples, case studies, and best practice methodologies. The interactive nature of the session encouraged active participation, with attendees engaging in discussions, raising technical queries, and sharing professional insights, transforming the program into a productive knowledge exchange platform.

Participants expressed strong appreciation for the session’s relevance and practical value, highlighting that the knowledge gained would directly contribute to improved decision-making, project execution, and technical performance in their respective professional roles.

The IESL Qatar Chapter extends its sincere gratitude to C.Eng. A.R.M. Rifaath for his valuable contribution and dedication to professional knowledge sharing. Appreciation is also extended to all participants for their enthusiastic involvement and commitment to continuous learning.

This successful CPD session once again reaffirms the Chapter’s dedication to Continuous Professional Development, technical excellence, and capacity building, further strengthening the role of Sri Lankan engineers in Qatar’s construction and infrastructure sector.
