

IESL Qatar Chapter Successfully Hosts “IESLQ Boat Bliss 2025” – A Memorable Family Gathering on the Waters of Doha

The Institution of Engineers, Sri Lanka (IESL) – Qatar Chapter successfully organized its much-anticipated family event, “IESLQ Boat Bliss 2025,” on Friday, 28 November 2025, at Dhow Harbour, Doha. The event brought together approximately 35 participants, including members and their families, creating a vibrant atmosphere of fellowship, relaxation, and community bonding.

The program commenced with participant registration at Dhow Harbour, followed by the boarding of the vessel, setting the stage for an exciting evening on the water. The official proceedings began with a welcome address, warmly greeting all attendees and highlighting the importance of family-oriented gatherings in strengthening unity within the Sri Lankan engineering community in Qatar.

A special interactive session with senior members provided an opportunity for informal discussions and experience sharing, fostering professional and personal connections among participants. The event continued with refreshments and a series of entertaining activities, including fun games, and dedicated children’s activities, which added excitement and inclusivity to the program. The young participants were further delighted with a gift distribution ceremony, making the event particularly memorable for families.

As the cruise concluded, a formal vote of thanks was delivered, acknowledging the efforts of the organizing team and the enthusiastic participation of members. The evening was further enriched by an optional group dinner at Dhow Harbour Park, allowing participants to continue socializing and enjoy quality time together in a relaxed outdoor setting.

The scenic views of Doha’s skyline, combined with music, engaging activities, and warm camaraderie, made IESLQ Boat Bliss 2025 a truly unforgettable experience. The success of this event once again demonstrated the IESL Qatar Chapter’s commitment to promoting unity, work-life balance, and strong community engagement among Sri Lankan engineers and their families.

The Chapter extends its sincere appreciation to all participants, volunteers, and organizers whose collective efforts contributed to the success of this memorable family gathering.
